CALIFORNIA PATIENT DISCHARGE DATA

January-December 2001

INTRODUCTION

Public Patient-Level Dataset – Patient Discharge Data

The California Office of Statewide Health Planning and Development (OSHPD) provide a public dataset of the Patient Discharge Database available for purchase on compact disc (CD). The data are made available by OSHPD once it has been screened by the edit program and corrected by the individual hospitals. The public patient-level dataset includes patient zip code, demographic variables and clinical information

The public dataset is comprised of a record for each inpatient discharged from a licensed acute care hospital (that includes: General Acute Care Hospitals, Acute Psychiatric Hospitals, Chemical Dependency Recovery Hospitals, and Psychiatric Health Facilities). Note: the only exceptions are records not reported by some California State Hospitals; see the State Hospitals discussion on page four.

The patient discharge dataset is available for discharges in each calendar year. The data on CD-ROM are stored on one CD containing three zipped data files and a full set of documentation files. The discharge records are divided into three sets by the geography of the reporting hospitals. One file contains discharge records from hospitals in Los Angeles County, another file contains discharges from the seven other counties in Southern California and the third file contains discharges from hospitals in the remaining 50 Northern California Counties.

Masked variables

To protect patient confidentiality, those records with unique combinations of a select set of demographic variables will have one or more of those variables masked to ensure the files are de-identified. Each unique record will have the minimum number of fields masked to allow it to no longer be unique. The variable masking will occur in the order in the table below:

ORDER OF MASKING	DATA FIELDS SUBJECT TO MASKING
1 st	Age in years (at admission)
2 nd	Ethnicity
3 rd	Race
4 th	Sex
5 th	Age Category 20 (20 Age Categories)
6 th	Age Category 5 (5 Age Categories)
7 th	Small County Groups*
8 th	Admit Quarter
9 th	Patient Zip Code **
10 th	OSHPD ID
	<i>*Small counties with total populations of 30,000 or less are grouped into 3 categories: Central (CE), Northeastern (NE), and Northwestern (NW). Ten counties were grouped in 2001: Central: Alpine, Inyo, Mariposa, Mono; Northeastern: Modoc, Plumas, Sierra; Northwestern: Colusa, Glenn, and Trinity.</i>
	<i>**Five-digit zip will be masked to three-digits; if record is still unique, zip will be totally masked with an asterisk.</i>

General assistance is available by calling OSHPD's Healthcare Information Resource Center at (916) 322-2814.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

Public Discharge Dataset

Data Fields in 2001 Public Discharge Dataset	Percent Remaining Unmasked For Variables Subject to Masking
Hospital Identification Number	100.0%
Type (level) of Care	
Age in Years	54.6%
Age (20 Categories)	86.8%
Age (5 Categories)	93.3%
Sex	82.0%
Ethnicity	70.6%
Race	74.5%
Zip Code (5 digits masked to 3 digits)	98.3%
ZIP Code (3 digits masked to 0 digits)	99.6%
County of Patient's Residence (or Small County Groups)	99.9%
Length of Stay	
Quarter admitted	96.6%
Year admitted	
Source of Admission	
Type of Admission	
Disposition of Patient	
Prehospital Care and Resuscitation (Do Not Resuscitate Order)	
Expected Principal Source of Payment - Payer Category	
Expected Principal Source of Payment - Type of Coverage	
Expected Principal Source of Payment – Plan Code Number	
Total Charges	
Principal External Cause of Injury (E-Code)	
Other External Cause of Injuries (up to 4 Other E-Codes)	
Major Diagnostic Category	
Diagnosis Related Group	
Principal Diagnosis	
Condition Present at Admission (for Principal Diagnosis)	
Principal Procedure	
Days from Admission to Principal Procedure	
Other Diagnoses (24 Other Diagnoses)	
Condition Present at Admission (for Other Diagnoses)	
Other Procedures (20 Other Procedures)	
Days From Admission to Other Procedures	

CALIFORNIA PATIENT DISCHARGE DATA

January-December 2001

IMPORTING NOTES:

The fields listed below contain numeric codes, which are not numeric values; most PC software will treat these fields as numeric values unless formatted otherwise. Thus, when importing the data into your software, these fields should be formatted as text or alphanumeric to retain the leading and trailing zeros. Also, when a text variable is masked, the field value is an asterisk, which may cause errors if imported as numeric.

- OSHPD-Hospital Identification Number
- 5-Age Category and 20-Age Category Fields
- Sex
- Ethnicity
- Race
- Patient ZIP Code
- County of Patient's Residence
- Admission Quarter
- Expected Principal Source of Payment – Plan Code Number
- MDC
- DRG
- **All** diagnosis code fields (principal and other)
- **All** procedure code fields (principal and other)

It is especially important that all Diagnosis and Procedure code fields be formatted as “text.” These fields are comprised of ICD-9-CM codes, some of which begin with alpha characters that cannot be read if not formatted as text. Also, many ICD-9-CM codes have leading and/or trailing zeros. For example, the ICD-9-CM code for *Salmonella Gastroenteritis* is “003.0”. If it is not formatted as text, it will appear as “3”, which is the numeric value, but is not the valid diagnostic code for *Salmonella Gastroenteritis*.

It is not absolutely essential but is recommended, to maintain leading zeros in the other codes that contain leading zeros (Hospital Identification Number, Patient's County of Residence, MDC, DRG, and Payer Plan Code Number). When these fields are formatted as “text,” the number of digits in each respective field will then remain constant. For example, Alameda County will then appear as “01”, rather than “1”, and will contain two digits like the other 2-digit county codes (Fresno through Yuba, 10 through 58, respectively).

COMMA DELIMITED DATA FORMAT

In the comma-delimited set, the length of each field and the length of each record will vary according to the data reported. To assist you in using the comma delimited patient discharge data sets, a header row identifying each data element is provided in the position of the first record.

Each data element is separated by a comma and is defined and described in this documentation. In Appendix I, there is a table listing the Field Label (used in the header row), Field Name, Field Type (format), and Maximum Number of Characters.

Fields with no data will have consecutive delimiters (commas). Most PC software will have no difficulty with consecutive delimiters. However, some software packages may handle consecutive delimiters as a single delimiter and adjustments will need to be made.

Note: It is possible for some invalid values to remain in the database “as reported” by the hospital, due to a lack of database enforced integrity. This means that for some observations, you may find blank values, invalid alpha characters in numeric fields, out-of-range numeric values, etc.

CALIFORNIA PATIENT DISCHARGE DATA

January-December 2001

FACILITY EXCEPTIONS

State Hospitals:

Through the first half of 1989, the database included twelve state hospitals. As of July 1989, the eleven operated by the Department of Mental Health or the Department of Developmental Services, serving mentally disordered and developmentally disabled patients, no longer report discharge data. The twelfth, the Veterans Home of California, Nelson M. Holderman Memorial Hospital, in Yountville has continued to report discharge data. Records from this hospital can be located using the Hospital Identification Number "281297."

Psychiatric Health Facilities:

Psychiatric Health Facilities, which provide care in licensed Acute Psychiatric beds, are subject to the same reporting requirements as other California hospitals. This type of hospital was first licensed in California in 1988. Patient discharge data for 1989 and for January through June 1990 included data from six Psychiatric Health Facilities; data for July through December 1990 include data from all but one of the 16 licensed Psychiatric Health Facilities. All of these facilities started reporting their patient discharge data beginning in 1991.

Modifications and Non-Compliant Facilities:

Some hospitals have applied for and been granted "modifications" to standard Patient Discharge Data reporting requirements. Other hospitals were unable to complete specific fields as required and were deemed "non-compliant" at the time of reporting. See Appendix D (Data Exceptions) for a listing of all non-compliant hospitals and those with approved modifications and their affected variables.

Defaulted Variables

Invalid or missing values (submitted below the error tolerance level) are defaulted to "unknown." The table below displays default numbers and percentages.

Default Status	Numbers of Records	Percent Defaulted
Not Defaulted	3,853,786	99.73%
One Variable Defaulted	9,698	.25%
Multiple Variables Defaulted	606	.02%

VARIABLE CHANGES

Hospital Identification Number:

The first six characters of each record contain the "Hospital Identification Number". Beginning with data reported for 1995, this former nine-digit hospital identification number was restructured to six digits. The former first digit, that indicated the type of care reported, has been made a separate data element (Type of Care) and is described below. The former filler number "06" (2nd and 3rd digits) has been dropped. Thus, the hospital identification number now consists of the following six digits: the first two indicate the county and the last four are unique to a facility within each county.

Type of Care:

The second field on each record is a single digit field that describes the "Type of Care" ("Level of Care" in

CALIFORNIA PATIENT DISCHARGE DATA

January-December 2001

1995 and 1996) from which the patient was discharged. The Type of Care codes and labels are:

- 1 = Acute Care
- 3 = Skilled Nursing and Intermediate Care (frequently known as Long Term Care)
- 4 = Psychiatric Care
- 5 = Chemical Dependency Recovery Care
- 6 = Physical Rehabilitation Care

Note: there has never been a Type of Care or Level of Care code "2".

Beginning with 1997 data, hospitals were required to report one of the **five** Types of Care, above, for each discharge.

For the 1995 and 1996 data years, hospitals were required to assign, to each discharge, one of **three** Levels of Care ("3" for Long Term Care, "6" for Rehabilitation Care and "1" for all other types of care).

Prior to 1995, discharges were optionally reported in sets, by one of the five Types of Care. Most hospitals chose to include all discharges, regardless of the type of care, in one set (usually acute care).

HISTORICAL SUMMARY OF FORMAT AND CONTENT CHANGES PATIENT DISCHARGE DATA COLLECTION PROGRAM	
DATA ITEM:	ACTION / EFFECTIVE DATE:
E-Code	Added - July 1990
Social Security Number	Added - July 1990
Record Linkage Number (Encrypted SSN)	Added - July 1990
Zip Code for Homeless (ZZZZZ)	Added - November 1993
Hospital Identification Number (from 9 to 6 digits)	Changed - January 1995
Level of Care (<i>see Type of Care, below</i>)	Added - January 1995
Ethnicity/Race	Changed - January 1995
Source of Admission	Expanded - January 1995
Type of Admission	Changed - January 1995
Procedure Dates (for all reported procedures)	Added - January 1995
Patient Disposition	Expanded - January 1995
Expected Source of Payment:	Changed - January 1995
	Expanded - January 1999
Principal Diagnosis-Condition Present at Admission	Added - January 1996
Other Diagnoses-Condition Present at Admission	Added - January 1996
Type of Care (<i>formerly Level of Care</i>)	Changed - January 1997
Prehospital Care & Resuscitation (Do Not Resuscitate Order)	Added - January 1999

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

HOSPITAL IDENTIFICATION NUMBER

FIELD NAME : OSHPD_ID

DEFINITION : A unique six-digit identifier assigned to each facility by the Office of Statewide Health Planning and Development. The first two digits indicate the county in which the hospital is located. The last four digits are unique within each county.

CODES, CATEGORIES AND COMMENTS:

A - <u>99</u>	=	01-58 = County Codes (see Appendix A)
B - <u>9999</u>	=	0001-9999 = Unique Hospital Identifier (within county)

OSHPD Facility ID Number will be the 9th variable masked if necessary to de-identify unique patient records by replacing code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

TYPE OF CARE

FIELD NAME : TYP_CARE

DEFINITION : Defined by the California Health and Safety Code, this refers to the licensure of the bed occupied by an inpatient. The types of care are documented on the official license issued by Licensing and Certification of the California State Department of Health Services.

CODES, CATEGORIES AND COMMENTS:

<u>Code</u>	<u>Category</u>	<u>Licensed Bed Classification/Designation</u>
1 =	Acute Care	General Acute Care
3 =	Skilled Nursing/Intermediate Care	Skilled Nursing/Intermediate Care (a.k.a. Long Term Care)
4 =	Psychiatric Care	Acute Psychiatric Care
5 =	Chemical Dependency Recovery Care	Chemical Dependency Recovery Hospital/Service
6 =	Physical Rehabilitation Care	Rehabilitation Center, a bed designation within the General Acute Care classification.

All other values for Type of Care are not considered valid.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

AGE IN YEARS (at Admission)

FIELD NAMES : AGE_YRS

DEFINITION : Age of patient at time of admission.

CODES, CATEGORIES AND COMMENTS:

Age = Blank indicates age has been masked or is unknown (the year of birth is incomplete or unknown and an age of 0 has been assigned).

Newborns are identified with a code 7 in Source of Admission or infants (less than 24 hours old) are coded with a 3 in Type of Admission.

To reduce the need for masking to protect patient confidentiality; all patients older than 85 will be coded as "85" years of age. This can be considered "85 and older."

If necessary, Age in Years will be the first variable masked to de-identify unique patient records, by blanking-out reported age. This is the only numeric data element that will be masked; all other variables subject to masking are text variables and contain an asterisk when masked.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

AGE 20 CATEGORY

FIELD NAME : AGECAT20

DEFINITION : Age range categories based on the patient's age at the time of admission.
 Twenty age categories; mostly 5-year increments.

CODES, CATEGORIES AND COMMENTS:

The following age breakdown was provided in public version B for 1999 and 2000.

CATEGORY	AGE	DEFINITION
01	under 1 year	under 1 year
02	1-4 years	366 days through 4 years
03	5-9 years	5 years through 9 years
04	10-14 years	10 years through 14 years
05	15-19 years	15 years through 19 years
06	20-24 years	20 years through 24 years
07	25-29 years	25 years through 29 years
08	30-34 years	30 years through 34 years
09	35-39 years	35 years through 39 years
10	40-44 years	40 years through 44 years
11	45-49 years	45 years through 49 years
12	50-54 years	50 years through 54 years
13	55-59 years	55 years through 59 years
14	60-64 years	60 years through 64 years
15	65-69 years	65 years through 69 years
16	70-74 years	70 years through 74 years
17	75-79 years	75 years through 79 years
18	80-84 years	80 years through 84 years
19	85 years & over	85 years or greater
00	unknown (0)	Year of birth incomplete or unknown

Age Category (20) will be the 5th variable masked if necessary to de-identify unique patient records by replacing age category code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

AGE 5 CATEGORY

FIELD NAME : AGECAT5

DEFINITION : Five age categories; Random year increments.

CODES, CATEGORIES AND COMMENTS:

CATEGORY	AGE	DEFINITION
01	Under 1 year	Under 1 year
02	1-17 years	1 year through 17 years
03	18-34 years	18 years through 34 years
04	35-64 years	35years through 64 years
05	65years & over	65 years or greater
00	Unknown (0)	Year of birth incomplete or unknown

Age Category (5) will be the 6th variable masked if necessary to de-identify unique patient records by replacing age category code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

SEX

FIELD NAME : SEX

DEFINITION : This is the gender of the patient.

CODES, CATEGORIES AND COMMENTS:

<u>Code</u>	<u>Category</u>
1	Male
2	Female
3	Other
4	Unknown

All other values for Sex are not considered valid.

"Other" includes sex changes, undetermined sex, and live births with congenital abnormalities that obscure sex identification. "Unknown" indicates that the patient's sex was not available from the medical record.

Sex (gender of the patient) will be the 4th variable masked if necessary to de-identify unique patient records by replacing code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

ETHNICITY

FIELD NAME : ETHNCTY

DEFINITION : This code indicates whether or not the patient's ethnicity is Hispanic.

CODES, CATEGORIES AND COMMENTS:

The single code digit indicates ethnicity and includes:

<u>Code</u>	<u>Category</u>
1	Hispanic
2	Non-Hispanic
3	Unknown

All other values for Ethnicity are not considered valid.

Both ethnicity and race are self-reported by the patient.

Ethnicity will be the 2nd variable masked if necessary to de-identify unique patient records by replacing code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

RACE

FIELD NAME : RACE

DEFINITION : This code indicates the patient's racial background.

CODES, CATEGORIES AND COMMENTS:

<u>Code</u>	<u>Category</u>
1	White – A person having origins in or who identifies with any of the original Caucasian peoples of Europe, North Africa, or the Middle East.
2	Black – A person having origins in or who identifies with any of the black racial groups of Africa.
3	Native American/Eskimo/Aleut – A person having origins in or who identifies with any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.
4	Asian/Pacific Islander – A person having origins in or who identifies with any of the original oriental peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. Includes Hawaii, Laos, Vietnam, Cambodia, Hong Kong, Taiwan, China, India, Japan, Korea, the Philippine Islands, and Samoa.
5	Other – Any possible options not covered in the above categories.
6	Unknown

All other values for Race are not considered valid.

Both ethnicity and race are self-reported by the patient.

Race will be the 3rd variable masked if necessary to de-identify unique patient records by replacing code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

PATIENT ZIP CODE
FIVE DIGIT / THREE DIGIT

FIELD NAME : PATZIP

DEFINITION : The ZIP Code of the patient's residence (all five digits). This is a unique code assigned to a specific geographic area by the U.S. Postal Service for the patient's usual residence.

CODES, CATEGORIES AND COMMENTS:

- The five digits of the ZIP Code of the patient's residence.
- If the field is coded with XXXXX, the ZIP Code is unknown.
- If it is coded with YYYYY, the patient is from an area outside the United States.
- If it is coded with ZZZZZ, the patient has no residence (homeless).
- If the first three digits are the only digits reported then it is a partial ZIP Code. It will be shown as a 5-digit ZIP code—the first three digits plus '00'. Example: Sacramento, CA 95800.

The reported ZIP Code will be the 8th variable masked if necessary to de-identify unique patient records to protect patient confidentiality. The Patient ZIP Code can be masked sequentially from 5-digits to 3-digits, then from 3-digits to just an asterisk, if required to de-identify the record.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

COUNTY OF PATIENT'S RESIDENCE

FIELD NAME : PATCNTY

DEFINITION : The patient's zip code is used to assign a county of residence.

CODES, CATEGORIES AND COMMENTS:

Codes: 00-58, CE, NE and NW

01-58 indicates a county in California (see list in Appendix A); 00 indicates that the patient's zip code was unknown, outside California, outside the U.S., or homeless; blanks indicate the patients ZIP Code was unreported or partial. Data for 2001 is the only data in which some records have a blank patient county.

If the first three digits of the patient's ZIP code are the only digits reported then it is a partial ZIP Code. Partial ZIP codes will be shown as a blank in the 2001 data only.

To protect patient confidentiality, those counties with populations less than 30,000 are assigned to one of three groups of small counties to de-identify unique patient records. The groups and counties included are:

GROUP	COUNTIES
CE (Central)	Alpine, Inyo, Mariposa and Mono
NE (North East)	Modoc, Plumas and Sierra
NW (North West)	Colusa, Glenn and Trinity

Note – Using the reported ZIP Code, OSHPD assigns the patient's county of residence. ZIP Codes are designed for mail delivery, not to identify political boundaries. Therefore, some ZIP Codes cross county boundaries. For such ZIP Codes, OSHPD assigns the county with the greatest population in the respective ZIP Code.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

LENGTH OF STAY (Days)

FIELD NAME : LOS

DEFINITION : Total number of days from admission date to discharge date of each patient.

CODES, CATEGORIES AND COMMENTS:

The days are calculated by subtracting the Admission Date from the Discharge Date. The length of stay for patients admitted on day one and discharged on day two is counted as one day.

Patients admitted and discharged on the same day yield a calculated length of stay of "0" days. This requires changing those (same-day admits and discharges) zeros to "ones" before performing average length of stay calculations to achieve more meaningful average length of stay calculations.

The number of days is right justified and zero filled (for fixed-length data format).

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

ADMISSION: QUARTER

FIELD NAME : ADM_QTR

DEFINITION : Quarter the patient was admitted to the hospital.

CODES, CATEGORIES AND COMMENTS:

		<u>Code</u>	<u>Quarter</u>
Quarter	: One-digit quarter	1	January-March
		2	April-June
		3	July-September
		4	October-December

Quarter admitted will be the 7th variable masked if necessary to de-identify unique patient records by replacing code with an asterisk.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

ADMISSION: YEAR

FIELD NAMES : ADM_YR

DEFINITION : Year the patient was admitted to the hospital.

CODES, CATEGORIES AND COMMENTS:

Four-digit Year - This is comprised of first two digits century and last two digits year.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

SOURCE OF ADMISSION

FIELD NAME : ADM_SRC

DEFINITION : Effective with discharges on January 1, 1995, the source of admission describes three aspects of the source:

The first digit describes the site from which the patient originated.

The second digit describes the license of site from which the patient originated.

The third digit describes the route by which the patient was admitted.

CODES, CATEGORIES AND COMMENTS:

Site:

<u>Code</u>	<u>Category</u>
1	Home
2	Residential Care Facility
3	Ambulatory Surgery
4	Skilled Nursing/Intermediate Care
5	Acute Inpatient Hospital Care
6	Other Inpatient Hospital Care
7	Newborn*
8	Prison/Jail
9	Other

All other values for "Site" are not considered valid.

**"Newborn" source of admission is defined as a "baby born alive in this hospital."*

Licensure of Site:

<u>Code</u>	<u>Category</u>
1	This Hospital
2	Another Hospital
3	Not a Hospital

All other values for "Licensure of Site" are not considered valid.

Route:

<u>Code</u>	<u>Category</u>
1	<u>Your</u> ER
2	Not <u>Your</u> ER (or no ER)

All other values for "Route" are not considered valid.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

TYPE OF ADMISSION

FIELD NAME : ADM_TYPE

DEFINITION : Effective with discharges on January 1, 1995, the patient's type of admission was reported using one of the categories listed below. The critical distinction is not how but when the admission was arranged.

CODES, CATEGORIES AND COMMENTS:

<u>Code</u>	<u>Category</u>
1	Scheduled (Scheduled in advance, at least of 24 hours or more prior to admission)
2	Unscheduled (Not scheduled within 24 hours or more prior to admission)
3	Infant, less than 24 hrs old
4	Unknown (Does not include stillbirths)

All other values for Type of Admission are not considered valid.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

DISPOSITION OF PATIENT

FIELD NAME : DISP

DEFINITION : The consequent arrangement or event ending a patient's stay in the reporting facility. Effective with discharges beginning January 1, 1995, the codes are as follows:

CODES, CATEGORIES AND COMMENTS:

Disposition of Patient:

<u>Code</u>	<u>Category</u>
01	Routine (Home)

Within this Hospital:

<u>Code</u>	<u>Category</u>
02	Acute Care
03	Other Care
04	Skilled Nursing/Intermediate Care

To Another Hospital:

<u>Code</u>	<u>Category</u>
05	Acute Care
06	Other Care (not Skilled Nursing/Intermediate Care)
07	Skilled Nursing/Intermediate Care
08	Residential Care Facility
09	Prison/Jail
10	Against Medical Advice
11	Died
12	Home Health Service
13	Other

All other values for Disposition are not considered valid.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

PREHOSPITAL CARE AND RESUSCITATION

FIELD NAME : DNR

DEFINITION : This code indicates whether or not there was a "Do Not Resuscitate" order upon admission or within 24 hours of admission from a physician.

CODES, CATEGORIES AND COMMENTS:

A "Do Not Resuscitate" (DNR) order is a directive from a physician in a patient's current inpatient medical record instructing that the patient is not to be resuscitated in the event of a cardiac or pulmonary arrest. In the event of a cardiac or pulmonary arrest, resuscitative measures include, but are not limited to, the following: cardiopulmonary resuscitation (CPR), intubation, defibrillation, cardioactive drugs, or assisted ventilation.

Code Category

Y = Yes - a DNR order was written at the time of or within the first 24 hours of patient's admission to the hospital.

N = No - a DNR order was not written at the time of or within the first 24 hours of the patient's admission to the hospital.

All other values for Prehospital Care and Resuscitation are not considered valid.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

EXPECTED SOURCE OF PAYMENT
PAYER CATEGORY

FIELD NAME : PAY_CAT

DEFINITION : This code indicates the category of payer (type of entity or organization) who is expected to pay or did pay the greatest share of the patient's bill.

CODES, CATEGORIES AND COMMENTS:

Expected Payer Categories			
Code	Category	Code	Category
01	Medicare	06	Other Government
02	Medi-Cal	07	Other Indigent
03	Private Coverage	08	Self Pay
04	Workers' Compensation	09	Other Payer
05	County Indigent Programs	00	Not reported or reported in error

All other values for Payer Category are not considered valid.

- **Medicare** – A federally administered third party reimbursement program authorized by Title XVIII of the Social Security Act. Includes crossovers to secondary payers.
- **Medi-Cal** – A state administered third party reimbursement program authorized by Title XIX of the Social Security Act.
- **Private Coverage** – Payment covered by private, non-profit, or commercial health plans, whether insurance or other coverage, or organizations. Included are payments by local or organized charities, such as the Cerebral Palsy Foundation, Easter Seals, March of Dimes, or Shriners.
- **Workers' Compensation** – Payment from workers' compensation insurance, government or privately sponsored.
- **County Indigent Programs** - Patients covered under Welfare and Institutions Code Section 17000. includes programs funded in whole or in part by County Medical Services Program (CMSP), California Healthcare for Indigents Program (CHIP), and/or other Realignment Funds whether or not a bill is rendered.
- **Other Government** - Any form of payment from government agencies, whether local, state, federal or foreign, except those listed above. Includes funds received through California Children Services (CCS), the Civilian Health and Medical Program of the Uniformed Services (TRICARE), and the Veterans Administration.
- **Other Indigent** – Patients receiving care pursuant to Hill-Burton obligations or who meet the standards for charity care pursuant to the hospital's established charity care policy.
- **Self Pay** – Payment directly by the patient, personal guarantor, relatives, or friends. The greatest share of patient's bill is not expected to be paid by any form of insurance or other health plan.
- **Other Payer** – Any third party payment not included above. Included are cases where no payment will be required by the facility, such as special research or courtesy patients.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

EXPECTED SOURCE OF PAYMENT

PAYER TYPE OF COVERAGE

FIELD NAME: : PAY_TYPE

DEFINITION : This code indicates the type of coverage for the following: Medicare, Medi-Cal, Private Coverage, Workers' Compensation, County Indigent Programs, and Other Government.

CODES, CATEGORIES AND COMMENTS:

<u>Codes</u>	<u>Category</u>
1	= Managed Care - Knox-Keene/MCOHS
2	= Managed Care – Other
3	= Traditional Coverage
0	= Payer Type field is not considered applicable for payer categories other than: Medicare, Medi-Cal, Private Coverage, Worker's Compensation, County Indigent or Other Government.

All other values of Payer Type are not considered valid.

Managed Care - Knox/Keene-Medi-Cal County Organized Health System. Healthcare service plans, including Health Maintenance Organizations (HMO), licensed by the Department of Corporations under the Knox-Keene Healthcare Service Plan Act of 1975. Includes Medi-Cal County Organized Health Systems (MCOHS).

Managed Care-Other. - Healthcare plans, except those above, which provide managed care to enrollees through a panel of providers on a pre-negotiated or per diem basis, usually involving utilization review. Includes Preferred Provider Organization (PPO), Exclusive Provider Organization (EPO), Exclusive Provider Organization with Point-of-Service option (POS).

Traditional Coverage. - All other forms of healthcare coverage, including the Medicare prospective payment system, indemnity or fee-for-service plans, or other fee-for-service payers.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

EXPECTED SOURCE OF PAYMENT

PAYER PLAN CODE

FIELD NAME: : PAY_PLAN

DEFINITION : This four-digit code number refers to the name of those plans which are licensed under the Knox-Keene Healthcare Service Plan Act of 1975 or designated as a Medi-Cal County Organized Health System (MCOHS).

CODES, CATEGORIES AND COMMENTS:

The Plan code number represents the name of the Knox-Knee licensed plan or the Medi-Cal County Organized Health System. See Appendix E for the plan code names and numbers.

If the Payer Plan Code field is not applicable, determined by Type of Coverage, the Plan Code is zero filled (i.e. assigned a value of "0000").

Only values for Payer Plan, listed in Appendix E, are considered valid.

If the plan **code numbers** are the **same** and the **plan names** are different, it means they belong to same "parent" plan.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

TOTAL CHARGES

FIELD NAME : CHARGE

DEFINITION : Total Charges include all charges for services rendered during the length of stay for patient care at the facility, based on the hospital's full established rates.

CODES, CATEGORIES AND COMMENTS:

Charges include, but are not limited to, daily hospital services, ancillary services and any patient care services. Hospital-based physician fees are excluded. Prepayment (e.g. deposits and prepaid admissions) are not deducted from Total Charges.

If a patient's length of stay is more than 1 year (365 days), Total Charges are reported for the last year (365 days) of stay only. To calculate Adjusted Total Charges for stays over one year use the following formula:

$$(\text{Total Charges} / 365 \text{ days}) \times \text{Length of Stay} = \text{Adjusted Total Charges}$$

Total Charges are expressed in whole dollars. However, there is a specific meaning attached to the three values of "total charges," below:

Where total charges equal 1 - the "1" is a code meaning that there were no (\$0) charges generated for the hospital stay (and was verified by the hospital). All Shriner's Hospital discharges are coded as "1" because they do not charge their patients. Note - The "1" allows the aggregation of all discharges with "valid total charges" by selecting those with total charges greater than zero.

Where total charges equal 0 - the "0" is a code meaning that there was a charge, but that the amount of the charge could not be reported by the hospital. For example, all Kaiser Foundation Hospitals are exempted from reporting total charges because they do not charge specifically for an inpatient stay, rather, they receive a constant monthly (capitated) payment from each member, whether or not that member is hospitalized, or received outpatient care or no care at all.

Where total Charges equal 9999999 -The total charge of "9999999" indicates the actual charges exceed the seven digit field size utilized by the hospital or designated agent.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

EXTERNAL CAUSE OF INJURY -- PRINCIPAL E-CODE

FIELD NAME : ECODE_P

DEFINITION : The external cause of injury consists of the ICD-9-CM codes E800-E999 (E-Codes), that are used to describe the external cause of injuries, poisonings, and adverse effects. If the information is available in the medical record, E-Codes sufficient to describe the external cause are reported for discharges with a principal and/or other diagnoses classified as injuries or poisonings in Chapter 17 of the ICD-9-CM (800-999), or where a code from Chapters 1-16 of the ICD-9-CM (001-799) indicates that an additional E-code is applicable. The reporting of E-Codes in the range E870-E879 (misadventures and abnormal reactions) is not required. The principal E-Code is reported only for the inpatient hospitalization during which the injury, poisoning, and/or adverse effect was first diagnosed and/or treated.

To assure uniform reporting of E-Codes, when multiple codes are required to completely classify the cause, the first (principal) E-code will describe the mechanism that resulted in the most severe injury, poisoning, or adverse effect.

CODES, CATEGORIES AND COMMENTS:

The valid E-Codes are specified in Chapter 17 of the ICD-9-CM codebook. External cause of injury was not required for discharges before July 1, 1990.

CODE STRUCTURE (examples):

Content of Field: E9068 Would be read as: E906.8

Content of Field: E899 Would be read as: E899.

(Implied decimal is read after the first four positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

EXTERNAL CAUSE OF INJURY - OTHER E-CODES

FIELD NAME : ECODE1, ECODE2, ECODE3, and ECODE4

DEFINITION : The external cause of injury consists of the ICD-9-CM codes E800-E999 (E-Codes), that are used to describe the external cause of injuries, poisonings, and adverse effects. If the information is available in the medical record, E-codes sufficient to describe the external cause are reported for discharges with a principal and/or other diagnoses classified as injuries or poisonings in Chapter 17 of the ICD-9-CM (800-999), or where a code from Chapters 1-16 of the ICD-9-CM (001-799) indicates that an additional E-code is applicable. The reporting of E-Codes in the range E870-E879 (misadventures and abnormal reactions) is not required. An E-Code is reported only for the inpatient hospitalization during which the injury, poisoning, and/or adverse effect was first diagnosed and/or treated.

If the principal E-Code does not include a description of the place of occurrence of the most severe injury, or poisoning, an additional E-Code is reported to designate the place of occurrence, if available in the medical record. Place of occurrence is coded as E849.0 - E849.9. Up to three additional E-codes will be reported, if necessary to completely describe the mechanism(s) that contributed to, or the causal events surrounding, any injury or poisoning, or adverse effect first diagnosed and/or treated during the current inpatient hospitalization.

CODES, CATEGORIES AND COMMENTS:

The valid E-Codes specified in Chapter 17 of the ICD-9-CM codebook. External cause of injury was not required for discharges before July 1, 1990.

CODE STRUCTURE (examples):

Content of Field: E9068 Would be read as: E906.8

Content of Field: E899 Would be read as: E899.

(Implied decimal is read after the first four positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

MAJOR DIAGNOSTIC CATEGORY
(MDC)

FIELD NAME : MDC

DEFINITION : MDCs are mutually exclusive categories containing all possible principal diagnosis areas. The diagnoses in each MDC correspond to a single major organ system or etiology, and in general are associated with a particular medical specialty. Some MDCs are residual categories containing diseases or disorders that could not be assigned to an organ system-based MDC. OSHPD purchases the DRG Grouper software from Centers for Medicare and Medicaid Services (CMS) contractor, 3M® Health Information Systems. CMS implements revisions to the DRG Grouper software effective October 1, the start of the Federal fiscal year for the Medicare Prospective Payment System. The Office implements the same software effective with discharges from the beginning of the following calendar year. DRG Grouper Version 18.0, which was implemented by CMS on October 1, 2000, is the DRG Grouper applied to the Office's calendar year 2001 patient discharge data.

The MDC is based on the principal diagnosis. The MDC is given "00" for records where the principal diagnosis is not an existing ICD-9-CM code. Beginning with 1993 data, new codes after October 1, are "mapped" by OSHPD's own mapping logic system to the closest equivalent code recognized by the DRG Grouper Version for that calendar year and assigned to an MDC based on that DRG Grouper Version's logic.

CODES, CATEGORIES AND COMMENTS:

Codes: 00-25

MDC 00 is the label for records that could not be assigned to MDCs 1-25 by the DRG grouper (e.g. some records from DRG 470 (ungroupable)).

Appendix B displays the MDC descriptions.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

DIAGNOSIS RELATED GROUP
(DRG)

FIELD NAME : DRG

DEFINITION : DRGs are case-mix assignments grouping hospital patients to categories based on diagnostic, therapeutic and demographic characteristics for the purpose of reimbursement. OSHPD purchases the DRG Grouper software from Centers for Medicare and Medicaid Services (CMS) contractor, 3M® Health Information Systems. CMS implements revisions to the DRG Grouper software every October 1, the start of Federal fiscal year for the Medicare Prospective Payment System. The Office implements the same software effective with discharges from the beginning of the following calendar year. Special note - New codes after October 1, are "mapped" by OSHPD's own mapping logic system to the closest equivalent code recognized by the DRG Grouper Version for that calendar year and assigned to a DRG based on that DRG Grouper Version's logic.

CODES,CATEGORIES AND COMMENTS:

Codes: 001-511

Appendix C displays the DRG descriptions.

The following indicates the DRG Grouper Version used during recent years:

Calendar Year 1995 = Version 12.0 HCFA DRG Grouper
Calendar Year 1996 = Version 13.0 HCFA DRG Grouper
Calendar Year 1997 = Version 14.0 HCFA DRG Grouper
Calendar Year 1998 = Version 15.0 HCFA DRG Grouper
Calendar Year 1999 = Version 16.0 HCFA DRG Grouper
Calendar Year 2000 = Version 17.0 HCFA DRG Grouper
Calendar Year 2001 = Version 18.0 HCFA DRG Grouper

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

PRINCIPAL DIAGNOSIS

FIELD NAME : DIAG_P

DEFINITION : The condition established, after study, to be the chief cause of the admission of the patient to the facility for care.

CODES, CATEGORIES AND COMMENTS:

The appropriate codes to be entered for this data element are specified in the International Classification of Diseases, 9th Revision, Clinical Modification, U.S. Department of Health and Human Services, Washington D.C. (ICD-9-CM).

Beginning with 1999, the psychiatric codes from the Diagnostic and Statistical Manual of Mental Disorders (DSM), by American Psychiatric Association, Washington, D.C. are not accepted by OSHPD.

Note: Morphology codes are not accepted by OSHPD. SNODO codes are not accepted by OSHPD. Codes from the Supplementary Classification of External causes (E-Code) of Injury and Poisoning are not accepted in the Principal Diagnosis field. Italicized ICD-9-CM codes are not accepted in the Principal Diagnosis field.

CODE STRUCTURE (examples):

Content of Field: V5781 Would be read as: V57.81

Content of Field: 3441 Would be read as: 344.1

(Implied decimal is read after the first three character positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

CONDITION PRESENT AT ADMISSION
(for the Principal Diagnosis)

FIELD NAME : CPOA_P

DEFINITION : The indicator for whether or not the condition was present at admission by reporting Yes, No, or Uncertain for the Principal Diagnosis.

CODES, CATEGORIES AND COMMENTS:

The indicator for the principal diagnosis is defaulted to Yes (present at admission), unless reported otherwise.

<u>Code</u>		<u>Category</u>
Y	=	Yes
N	=	No
U	=	Uncertain

All other values of Condition Present At Admission are not considered valid.

Detailed parameters for reporting Condition Present At Admission are available in the California Patient Discharge Data Reporting Manual, Third Edition.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

PRINCIPAL PROCEDURE

FIELD NAME : PROC_P

DEFINITION : The principal procedure is one which was performed for definitive treatment rather than one performed for diagnostic or exploratory purposes, or which was necessary to take care of a complication.

The principal procedure is the procedure most related to the principal diagnosis.

If only non-therapeutic procedures were performed, then a significant non-therapeutic procedure should be reported. A significant procedure is one that is surgical in nature, or carries a procedural risk, or carries an anesthetic risk, or affects DRG assignment.

CODES, CATEGORIES AND COMMENTS:

The appropriate codes to be entered are specified in the International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM), U.S. Department of Health and Human Services, Washington, D.C.

Note: HCPCS and CPT codes are not accepted by OSHPD.

CODE STRUCTURE (examples):

Content of Field: 022 Would be read as: 02.2
Content of Field: 0293 Would be read as: 02.93
(Implied decimal is read after the first two positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

DAYS FROM ADMISSION TO PRINCIPAL PROCEDURE

FIELD NAME : PROC_PDY

DEFINITION : The number of days between the patient's admission date and the date of the Principal Procedure.

CODES, CATEGORIES AND COMMENTS:

If the Principal Procedure was performed prior to admission, this numeric value will be prefixed with a minus (-) sign. The days are calculated by subtracting the date of admission from the date of the Principal Procedure. If the Principal Procedure was performed on the day of admission, the number of days will be zero. If no Principal Procedure or date is reported, the days are shown as zero. The maximum value is 9999, which means that the procedure was performed more than 9998 days after admission.

Through 2000, if no procedure was performed, the days to procedure were shown as -999. For procedures performed on the same day as admission, the days were displayed as zero.

Some hospitals report procedures performed on their inpatients, on an outpatient basis by another facility, during the patient's stay at the reporting hospital. Therefore, not all procedures reported by a hospital were necessarily performed by and at that hospital.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

OTHER DIAGNOSES (24 Other Diagnoses)

FIELD NAME : ODIAG1 to ODIAG24

DEFINITION : Conditions that coexist at the time of admission, develop subsequently during the hospital stay, affect the treatment received, or affect the length of stay.

CODES, CATEGORIES AND COMMENTS:

Beginning with 1999, the psychiatric codes from Diagnostic and Statistical Manual of Mental Disorders (DSM), by American Psychiatric Association, Washington D.C., are not accepted by OSHPD.

The appropriate codes to be entered are specified in the International Classification of Diseases 9th Revision, Clinical Modification, U.S. Department of Health and Human Services, Washington, D.C. (ICD-9-CM).

Other Diagnoses do not include E-Codes. E-Codes are located in special E-Code fields.

Note: Morphology or SNODO codes are not accepted by OSHPD.

CODE STRUCTURE (examples):

Content of Field: V5781 Would be read as: V57.81
Content of Field: 3441 Would be read as: 344.1
(Implied decimal is read after the first three positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

CONDITION PRESENT AT ADMISSION
(for the Other Diagnoses)

FIELD NAME : CPOA1 to CPOA24

DEFINITION : The indicator for whether or not the condition was present at admission by reporting Yes, No, or Uncertain for all Other Diagnoses.

CODES, CATEGORIES AND COMMENTS:

<u>Code</u>	<u>Category</u>
Y	= Yes
N	= No
U	= Uncertain

All other values of Condition Present At Admission are not considered valid.

Detailed parameters for reporting Condition Present At Admission are available in the California Patient Discharge Data Reporting Manual, Third Edition.

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

OTHER PROCEDURES
(Maximum 20)

FIELD NAME : OPROC1 to OPROC20

DEFINITION : The procedure code is reported according to the ICD-9-CM. A procedure is considered significant when it is a surgical risk, procedural risk, anesthetic risk or is needed for DRG assignment.

CODES, CATEGORIES AND COMMENTS:

The appropriate codes to be entered are specified in the International Classification of Diseases 9th Revision, Clinical Modification (ICD-9-CM), U.S. Department of Health and Human Services, Washington, D.C. All significant procedures that are surgical in nature or carry procedural risk, or carry an anesthetic risk, or affect DRG assignment, are reported.

Note: HCPCS and CPT codes are not accepted by OSHPD.

CODE STRUCTURE (examples):

Content of Field: 022 Would be read as: 02.2

Content of Field: 0293 Would be read as: 02.93

(Implied decimal is read after the first two positions.)

CALIFORNIA PATIENT DISCHARGE DATA
January-December 2001

DAYS FROM ADMISSION TO OTHER PROCEDURES

FIELD NAME : PROCY1 to PROCY20

DEFINITION : The number of days between the patient's admission date and the date of the Other Procedure.

CODES, CATEGORIES AND COMMENTS:

If Other Procedures were performed prior to admission, the numeric value will be prefixed with a minus (-) sign. The days are calculated by subtracting the date of admission from the date of the Other Procedure. If the Other Procedures were performed on the day of admission, the number of days will be zero. If no Other Procedures or dates are reported, the days are shown as zero. The maximum value is 9999, which means that the procedure was performed more than 9998 days after admission.

Through 2000, if no procedure was performed, the days to procedure were shown as -999. For procedures performed on the same day as admission, the days were displayed as zero.

Some hospitals report procedures performed on their inpatients, on an outpatient basis by another facility, during the patient's stay at the reporting hospital. Therefore, not all procedures reported by a hospital were necessarily performed by and at that hospital.

APPENDICES

A full set of appendix files in a portable document format (.pdf) is included for viewing and printing. In addition, a subset of appendices are duplicated in comma-delimited text format (.txt). These text files can be used with relational database software to link code numbers from the data with their respective labels (e.g., the Hospital ID Number, (OSHPD_ID), from the data set can be matched with the hospital name in Appendix F). See the tables below for descriptions of the appendices.

APPENDICES PDF Files		
The complete set of Appendices (PDF format) is located in the "Appendices_01_pdf" folder.		
Appendices	File Name	PDF files must be viewed/read with Adobe Acrobat Reader
A	App_A_counties.pdf	Listing of California counties (names and codes).
B	App_B_mdc.pdf	Listing of Major Diagnostic Categories (names and codes)
C	App_C_drg.pdf	Listing of Diagnosis Related Groups (names and codes)
D	App_D_exceptions.pdf	Data Exceptions (Approved Requests for Modifications and Non-Compliances)
E	App_E_plan_codes.pdf	Plan Codes for Expected Source of Payment
F	App_F_hospital_list.pdf	Listing of all hospitals in data set (Hospital ID#, Name, ZIP, and total discharges)
G	App_G_report_form.pdf	Manual Abstract Reporting Form (OSHPD-1370)
H	App_H_consolidated_hospitals.pdf	Listing of all hospital locations on Consolidated Licenses
I	App_I_data_fields.pdf	Data Fields, comma delimited format, public set
J	App_J_masked_field_freqs.pdf	Frequencies, by Value, of Fields Subject to Masking

APPENDICES TXT Files		
A duplicate, sub-set of Appendices (comma delimited text) is located in the "Appendices_01_text" folder.		
Appendices	File Name	The text files below can be used as database tables to link codes with labels
A	App_A_counties.txt	Listing of California counties (names and codes)
B	App_B_mdc.txt	Listing of Major Diagnostic Categories (names and codes)
C	App_C_drg.txt	Listing of Diagnosis Related Groups (names and codes)
E	App_E_plan_codes.txt	Plan Codes for Expected Source of Payment
F	App_F_hospital_list.txt	Listing of all hospitals in data set (Hospital ID#, Name, ZIP, and total discharges)

APPENDIX A

505	22	M	Extensive 3Rd Degree Burns w/o Skin Graft
506	22	P	Full Thickness Burn w Skin Graft or Inhal Inj w cc or Sig Trauma
507	22	P	Full Thickness Burn w Skin Graft or Inhal Inj w/o cc or Sig Trauma
508	22	M	Full Thickness Burn w/o Skin Graft or Inhal Inj w cc or Sig Trauma
509	22	M	Full Thickness Burn w/o Skin Graft or Inhal Inj w/o cc or Sig Trauma
510	22	M	Non-Extensive Burns w cc or Significant Trauma
511	22	M	Non-Extensive Burns w/o cc or Significant Trauma

DRGs First, the major diagnostic category (MDC) is assigned based on the principal diagnosis. Then, the DRG is assigned based on one of the diagnosis related groups (DRG) within that MDC.

Pre MDC DRGs For the five DRGs listed below, the DRG is assigned first, based on any prior transplant, tracheostomy, or lung transplant, then it is assigned an MDC based on the principal diagnosis.

Unrelated DRGs The current version of the Grouper has four DRGs (468, 470, 476, and 477) that are unrelated to the principal diagnosis. Patients are assigned to DRGs based on the principal diagnosis. Patients who have had a procedure performed are unrelated to the principal diagnosis. Some patients in DRG 477 are assigned to any MDC; their MDC is shown as 00 (Ungroupable). Records fall in DRG 477 if the record is considered inconsistent or invalid by the Grouper's algorithm.

CC **Complications or Comorbidities.** A **comorbidity** is a pre-existing condition that exists with a specific principal diagnosis, affects the treatment received, and/or length of stay in cases, and therefore affects the DRG assignment. A **complication** is a condition that arises during the treatment received and/or may affect the length of stay in cases, and therefore affects the DRG assignment.

The Health Care Financing Administration (HCFA) developed five principles for assigning complications and comorbidities:

- 1 - Chronic and acute manifestations of the same condition should not be considered CCs for one another.
- 2 - Specific and nonspecific diagnosis codes for a condition should not be considered CCs for one another.
- 3 - Conditions that may not coexist, such as partial/total, unilateral/bilateral, benign/malignant should not be considered CCs for one another.
- 4 - The same condition in anatomically proximal sites, such as congenital anomalies, should not be considered CCs for one another.
- 5 - Closely related conditions, such as symptoms to the related condition (e.g., infection), should not be considered CCs for one another.

Med/Surg codes: P = Procedural (surgical)
M = Medical

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effectuated Report Period	Facility Comments
Alhambra Hospital Medical Center	Expected Source of Payment	1/1/2001 - 6/30/2001	Facility states that there was a mapping problem on their old system. Was corrected with their new system as of 4/1/2001.
	Principal Diagnosis Condition Present at Admission		Facility states that due to mapping problems and new staff, this data element was reported incorrectly. A new system has been put in place and should correct the problems.
	Source of Admission		Facility states that due to mapping problems and new staff, this data element was reported incorrectly. A new system has been put in place and should correct the problems.
	Other Diagnoses Condition Present at Admission		Facility states that due to mapping problems and new staff, this data element was reported incorrectly. A new system has been put in place and should correct the problems.
Alta Hospital District	All Fields: Missing Jan 1st through Aug 22nd.	1/1/2001 - 8/22/2001	Facility closed 8/22/2001. Staff not available to submit data. All attempts to contact facility have failed.
Alvarado Parkway Institute B.H.S.	Expected Source of Payment	1/1/2001 - 6/30/2001	Facility states that the Jan-June 2001 ESOP is incorrect. They cannot be corrected because of procedural problems. Their primary ESOP changes to self-pay when the co-payment amount was pursued. In the future they will not change the primary ESOP on the patient's account.
	Type of Care		Partial non-compliance issued. Facility states that current and future periods are incorrect. Staff incorrectly reporting patients in the wrong type of care. Staff is being trained to utilize Principal Diagnosis to determine chem dep vs psych type of care.
	Other Diagnoses Condition Present at Admission		Facility states that the percentage of Other Conditions reported as No/Uncertain is incorrect through all of 2001 data. For the past 2 years (2000 and 2001), they didn't put an Other dx indicator in as "existing during admission".
Anacapa Hospital	Expected Source of Payment	1/1/2001 - 12/31/2001	Hospital closed 03/08/2002. No staff available to transmit data nor make corrections.
	Total Charges.		Not reported. Hospital closed 03/08/2002. No staff available to transmit data nor make corrections.
Barstow Community Hospital	Prehospital Care and Resuscitation	1/1/2001 - 12/31/2001	Data not mapped correctly (100% No). Hospital system corrected for the 7 to 12 2002 data.
Children's Hospital of Los Angeles	Expected Source of Payment	7/1/2001 - 12/31/2001	The data not captured accurately and no further corrections can be made.
City of Hope National Medical Center	Prehospital Care and Resuscitation	1/1/2001 - 12/31/2001	DNR data lost during software conversion at facility.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effectuated Report Period	Facility Comments
Coastal Communities Hospital	Type of Admission	1/1/2001 - 12/31/2001	Facility has a mapping problem.
	Source of Admission		Facility has a mapping problem.
	Race		Facility has a mapping problem.
	Source of Admission		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
	Licensure of Site		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
	Expected Source of Payment		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
	Name of Plan		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
	Type of Care		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
	Other Diagnoses Condition Present at Admission		Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.
ZIP Code	Non-compliance issued due to facility not able to submit data below OSHPD established Error Tolerance Levels by the time of report period closing.		
College Hospital Costa Mesa	Other E-Code(s)	1/1/2001 - 12/31/2001	Other E-codes reported as unspecified 92%
	Other Diagnoses Condition Present at Admission		Using a new system for 2001 data which had been defaulting to Uncertain. The default has been turned off for data that will be submitted for discharges beginning July 2002.
	Source of Admission		Software that the facility uses was mapping data incorrectly for all of 2001.
Community Behavioral Health Center	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility confirms that their software program is not allowing for Managed Care to be reported. Primary Contact is aware of the problem and will correct the problem with the submission of July 2002 data.
	Source of Admission - Site		Facility software had been defaulting data in SOA to Home. Primary contact is aware of the problem and will correct with the July 2002 data.
Community Hospital of Gardena	Principal Diagnosis Condition Present at Admission	1/1/2001 - 12/31/2001	Hospital states that their computer system defaults the dx cpa to "uncertain." The problem has been corrected and will be reflected on the 1 to 6 2002 report period.
	Other Diagnoses Condition Present at Admission		Hospital states that their computer system defaults the dx cpa to "uncertain." The problem has been corrected and will be reflected on the 1 to 6 2002 report period.
Community Hospital of Los Gatos	Race	1/1/2001 - 12/31/2001	Facility states that they are aware of the requirement to collect ethnicity data when a patient is interviewed at registration. Sometimes this requirement is impossible since some patients don't know what category they fall into. More training is being provided for staff to improve the collection of race data.
Community Mem Hosp - San Buenaventura	Race	1/1/2001 - 12/31/2001	Facility states that they are not capturing Race/Ethnicity accurately. Will correct no later than Jan 2003.
Corcoran District Hospital	Ethnicity	1/1/2001 - 6/30/2001	Improper capturing of Ethnicity. Defaulting.
	Other Diagnoses Condition Present at Admission		All indicators defaulted to "Yes"
	Prehospital Care and Resuscitation		Per facility - during the 1 to 6 reporting period no DNR was captured.
	Race		Hospital unable to capture data for Race Unknown.
Del Amo Hospital	Other Procedure(s)	1/1/2001 - 12/31/2001	Facility states they do not have the ability to add Other Procedures to the 2001 data.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effected Report Period	Facility Comments
Downey Regional Medical Center	Race (Ethnicity Portion Only)	1/1/2001 - 6/30/2001	Facility states Race/Ethnicity-Unknown portion is incorrectly reported. Registration staff have been incorrectly reporting patients to unknown when admitted through their ED. Staff should have obtained the information prior to discharge. Facility was not able to review the report periods that follow this one, so non-compliance will only apply to this period.
Earl & Lorraine Miller Childrens Hospital	Other (Source of Admission & Type of Admission)	1/1/2001 - 6/30/2001	Newborns born at Long Beach & immediately admitted to Earl & Lorraine Miller Children's Hospital (196168) NICU, were erroneously reported as newborns on Earl & Lorraine Miller's data and are therefore over-counts for 1-6/2001.
Eden Medical Center	All data fields missing - Jan through June discharges.	1/1/2001 - 6/30/2001	Due to changes of computer systems at the facility, they were unable to access the data necessary to submit their January to June 2001 Patient Discharge Data. All attempts to do so have failed.
	Source of Admission	7/1/2001 - 12/31/2001	Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Expected Source of Payment		Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Type of Care		Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Other Diagnoses		Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Principal E-Code		Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Total Number of Discharges		Facility not able to submit data below OSHPD established Error Tolerance Levels.
	Other Diagnoses Condition Present at Admission		Facility not able to submit data below OSHPD established Error Tolerance Levels.
El Dorado County-PHF	Other Diagnoses	1/1/2001 - 12/31/2001	Facility missing/under-reporting other dx. Due to time and staffing considerations, they are unable to correct until Jan 2003 data.
Elastar Community Hospital	Expected Source of Payment Name of Plan	1/1/2001 - 12/31/2001	Facility at 39.82% plan code # 8000. Unable to correct.
Fairchild Medical Center	Other Diagnoses Condition Present at Admission	1/1/2001 - 12/31/2001	Facility did not capture indicators correctly.
Goleta Valley Cottage Hospital	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility not able to thoroughly research the errors and correct them at this time.
Hemet Valley Medical Center	Race (Ethnicity Portion Only)	1/1/2001 - 6/30/2001	Unknown Eth 76%.
Irvine Regional Hospital & Med. Ctr.	Race	1/1/2001 - 12/31/2001	Facility did not capture the Unknown ethnicity data accurately.
Kaiser Fdn Hosp - Anaheim	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
	Source of Admission Route	1/1/2001 - 6/30/2001	For 1 to 6 2001 discharges, reporting inaccurate data in Source of Admission Route. Per facility - while correction race problem, Source of Admission was affected. Past data correct.
Kaiser Fdn Hosp - Baldwin Park	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effected Report Period	Facility Comments
Kaiser Fdn Hosp - Bellflower	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Chemical Dep Program	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Fontana	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Fresno	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - GEARY (S.F.)	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Harbor City	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Hayward	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Mental Health Center	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Oakland Campus	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Panorama City	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Redwood City	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Rehab Ctr. - Vallejo	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Riverside	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Sacramento	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - San Diego	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - San Rafael	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effected Report Period	Facility Comments
Kaiser Fdn Hosp - Santa Clara	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Santa Rosa	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Santa Teresa Comm Hosp	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - South Sacramento	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - South San Francisco	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Sunset	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Valley Medical Center	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Walnut Creek	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - West LA	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kaiser Fdn Hosp - Woodland Hills	Total Charges	1/1/2001 - 12/31/2001	Approved Modification to exclude all total charges (Jan - Dec) because only a small percentage of patients were not capitated Kaiser members who incur no extra inpatient charge.
Kindred Hospital Ontario	Race (Race Portion Only)	1/1/2001 - 12/31/2001	Data collection on this data element was inconsistent for the entire reporting period.
LAC/ M.L. King Jr Drew Med Ctr.	Source of Admission	1/1/2001 - 6/30/2001	Category "Other" reported as a default when facility did not know what to do.
Lancaster Community Hospital	Other Diagnoses Condition Present at Admission	1/1/2001 - 12/31/2001	Per facility - unable to correct data. All indicators being defaulted to "yes."
Lassen Community Hospital	Race	1/1/2001 - 6/30/2001	All "Hispanic" ethnicity captured as race "Other."
Lompoc Healthcare District	Expected Source of Payment	1/1/2001 - 3/31/2001	Facility states that the first three months of 2001 data is not correct due to their main frame system unable to correct errors.
Long Beach Memorial Medical Center	Other (Source of Admission & Type of Admission)	1/1/2001 - 6/30/2001	Newborns born at Long Beach Memorial & immediately admitted to Earl & Lorraine Miller Children's Hospital (196168) NICU, were erroneously reported as newborns on Earl & Lorraine Miller's data and are therefore missing from Long Beach Memorial's data for 1-6/2001.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effectuated Report Period	Facility Comments
Los Angeles Metropolitan Medical Center	Other Diagnoses Condition Present at Admission	1/1/2001 - 12/31/2001	Facility states that their 100% Other Condition: "Yes" is caused due to their system not allowing for the data to be reported accurately.
Marin General Hospital	Race (Ethnicity Portion Only)	1/1/2001 - 12/31/2001	Not reporting Ethnicity per requirements.
Mayers Memorial Hospital	Type of Admission	7/1/2001 - 12/31/2001	Mapping errors applied to the TOA. Unable to correct. Facility lost their medical records director in November 2002 and they also have new computer software.
	Other Diagnoses Condition Present at Admission		Mapping errors applied to the ODCPA. Unable to correct. Facility lost their medical records director in November 2002 and they also have new computer software.
	Sex		Facility not able to submit "Sex" below OSHPD established Error Tolerance Levels by the time of report period closing.
	Prehospital Care and Resuscitation		Facility not able to submit "DNR" below OSHPD established Error Tolerance Levels by the time of report period closing.
	Admission Date		Facility not able to submit "Admission Date" below OSHPD established Error Tolerance Levels by the time of report period closing.
	Expected Source of Payment Payor Category		Facility not able to submit "Expected Source of Payment" below OSHPD established Error Tolerance Levels by the time of report period closing.
	Source of Admission Site		Facility not able to submit "Source of Admission" below OSHPD established Error Tolerance Levels by the time of report period closing.
Midway Hospital Medical Center	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility having mapping problems.
Monrovia Community Hospital	Prehospital Care and Resuscitation	1/1/2001 - 6/30/2001	Data was defaulted to "no".
Mountains Community Hospital	Source of Admission	1/1/2001 - 12/31/2001	Facility has several computer and mapping problems and the Medical Records Director will not be working any longer at the facility. No replacement has been hired.
	Expected Source of Payment		Facility has several computer and mapping problems and the Medical Records Director will not be working any longer at the facility. No replacement has been hired.
	Other Diagnoses Condition Present at Admission		Facility has several computer and mapping problems and the Medical Records Director will not be working any longer at the facility. No replacement has been hired.
	Principal Diagnosis Condition Present at Admission		Facility has several computer and mapping problems and the Medical Records Director will not be working any longer at the facility. No replacement has been hired.
	Other Procedure(s)		Per facility - data in error due to hospital oversight.
	Race		Per facility - data in error due to hospital oversight.
	Prehospital Care and Resuscitation		Per facility - data in error due to hospital oversight.
Novato Community Hospital-old location	Race (Ethnicity Portion Only)	1/1/2001 - 6/30/2001	Unable to report Ethnicity per requirements
Orange Coast Memorial Medical Center	Source of Admission Site	1/1/2001 - 12/31/2001	The facility incorrectly mapped 72% of the admission as coming from "Other."
	Type of Admission		The facility had a mapping problem on this data element. Data in scheduled and unscheduled mapped incorrectly.
Oroville Hospital	Race (Ethnicity Portion Only)	7/1/2001 - 12/31/2001	Facility states that the ethnicity-non-hispanic portion may not be accurate (over-reported).

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effectuated Report Period	Facility Comments
Parkview Community Hospital	Race	1/1/2001 - 12/31/2001	Hospital knows data improperly collected. This was caught in July 2001. Data tainted through beginning 7 t 12 2001 period.
Regional Medical Center of San Jose	Expected Source of Payment	1/1/2001 - 6/30/2001	Mis-mapping of insurance plans.
	Disposition Of Patient		Mapping problems caused by new computer system at the facility.
Ridgecrest Regional Hospital	Race (Ethnicity Portion Only)	1/1/2001 - 12/31/2001	Not to report Ethnicity (hispanic) per requirements.
San Diego County Psychiatric Hospital	Other Diagnoses Condition Present at Admission	1/1/2001 - 12/31/2001	The data element has a software related problem that has been reported to their software vendor. The mapping problem of the referral codes have since been corrected toward the later part of last year (2001).
San Ramon Rehabilitation Hospital	To report on physical electronic media	1/1/2001 - 12/31/2001	Hospital closed and will most likely not be able to submit their data electronically.
	Type of Admission		Data was reported as 99% Unknown. Data should have been reported as 100% Scheduled. Due to lack of time to enter on-line corrections to all 449 records, this data elelment will not be corrected.
Santa Ana Hospital Medical Center	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility states that they are missing Private/HMO and are unable to identify which category they could be in.
Santa Barbara Cottage Hospital	Expected Source of Payment	1/1/2001 - 12/31/2001	Per analyst/facility - hospital contact not able to research these errors at this time.
Santa Ynez Valley Cottage Hospital	Other Diagnoses Condition Present at Admission	1/1/2001 - 12/31/2001	Per facility/analyst - contact not able to research and correct information.
	Expected Source of Payment		Per facility and analyst - contact not able to research and correct information.
Seton Medical Center	Source of Admission Route	7/1/2001 - 12/31/2001	A mapping problem within "Admission Source-Route" caused errors. The problem was corrected late in 2002.
St. John's Regional Medical Center	Source of Admission	1/1/2001 - 6/30/2001	Data not reported consistent with OSHPD requirements. Several areas of concern - Invalid, illogical combinations, mapping, readmission edits.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effected Report Period	Facility Comments
St. Luke Medical Center	Admission Date	1/1/2001 - 12/31/2001	Facility closed. Staff not available to make corrections.
	Date of Birth		Facility closed. Staff not available to make corrections.
	Discharge Date		Facility closed. Staff not available to make corrections.
	Expected Source of Payment		Facility closed. Staff not available to make corrections.
	Other Diagnoses Condition Present at Admission		Facility closed. Staff not available to make corrections.
	Other Procedure Date(s)		Facility closed. Staff not available to make corrections.
	Prehospital Care and Resuscitation		Facility closed. Staff not available to make corrections.
	Total Charges		Facility closed. Staff not available to make corrections.
	Source of Admission		Facility closed. Staff not available to make corrections.
	Social Security Number		Facility closed. Staff not available to make corrections.
	Race		Facility closed. Staff not available to make corrections.
	Principal Procedure Date		Facility closed. Staff not available to make corrections.
	Principal Procedure		Facility closed. Staff not available to make corrections.
	Principal E-Code		Facility closed. Staff not available to make corrections.
	Principal Diagnosis Condition Present at Admission		Facility closed. Staff not available to make corrections.
	Principal Diagnosis		Facility closed. Staff not available to make corrections.
	ZIP Code		Facility closed. Staff not available to make corrections.
	Type of Care		Facility closed. Staff not available to make corrections.
	Type of Admission		Facility closed. Staff not available to make corrections.
	Other Procedure(s)		Facility closed. Staff not available to make corrections.
	Other E-Code(s)		Facility closed. Staff not available to make corrections.
	Other Diagnoses		Facility closed. Staff not available to make corrections.
	Disposition Of Patient		Facility closed. Staff not available to make corrections.
Sun Health Robert H. Ballard Rehab Hosp	Race	1/1/2001 - 6/30/2001	Facility not asking ETH (hispanic was an option in their Race portion).
Sutter Medical Center of Santa Rosa	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility has a mapping error for the Type of Coverage 1/Plan Code 8000. It will take some time to change the mapping
Sutter Warrack Hospital	Prehospital Care and Resuscitation	1/1/2001 - 6/30/2001	Hospital misunderstood DNR definition. Correction not possible.
Telecare Solano - P.H.F.	Expected Source of Payment	1/1/2001 - 6/30/2001	Upon review, facility found that the data was not reported in accordance with OSHPD requirements.
Torrance Memorial Medical Center	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility having mapping problems.
	Race	1/1/2001 - 6/30/2001	Not able to properly capture all Race categories. Ethnicity data is good as far as it goes but not able to capture Hispanic/Other Race.

APPENDIX D
January - December 2001 Patient Discharge Data Exceptions
by Hospital Name

Hospital	Affected Field	Effected Report Period	Facility Comments
University Community Medical Center	Expected Source of Payment	1/1/2001 - 12/31/2001	Facility states that the 2001 data was inaccurately reported.
Victor Valley Community Hospital	Race (Ethnicity Portion Only)	1/1/2001 - 12/31/2001	Ethnicity not collected properly until 9/2001
